

## Fact Sheet

### Tonax – Showering in colours, sounds and sensations

- Tonax is Ideal Standard International's latest innovative showering system collection combining functionality with innovation.
- Tonax was created by designer Marc Sadler, based in Milan, Italy.
- For the first time a new material has been used to produce the shower cubicle which allows for more silent showering and retains 20% more steam than a traditional glass shower cubicle.
- Tonax is a perfect vision of the shower of the future. It is available with **chromotherapy** and an MP3 player inlet. Additionally, storage with mirrors is included, as well as a comfortable seat.
- Tonax offers high functionality and multiple wellness features including a Turkish bath (steam) feature, a comfortable seat, powerful body massage jets, and a gentle rain showering system.
- Tonax can be combined with three shower systems: jet systems, wellness systems and supreme wellness systems.
- To achieve effective storage, Tonax offers integrated mirror cupboards which discreetly mask additional storage space.
- For personalised decoration, four stylish interior wall options are available to meet all consumers' tastes and environments. The walls can feature coloured glass, mosaic, be mirrored or use a white panel designed specifically for the easy placement of tiles.

## Specifications

- The collection is available in 3 sizes (90x90 cm, 90x75 cm left or right version, 120x80cm left or right version) and with 4 stylish interior wall options (coloured glass, mirror, mosaic or the consumer's favorite tiles) to perfectly fit in every bathroom

- Tonax can be combined with 3 shower systems:
  - Jet systems
  - Wellness systems
  - Supreme wellness systems
- Tonax will be available across Europe, Middle East and Africa in January 2008
