| Job Title | PROCUREMENT CATEGORY MANAGER, GENERAL EXPENDITURE (Genex) | | |
| Department | Procurement | | |
| Country | BE | City | Zaventem |
| Job type | Permanent | Work schedule | Full-time |

Responsibilities & Accountability

The role of Category Manager Genex is to lead Category sourcing strategy development, deployment and supplier management across the business in order to drive value creation and minimize total cost of ownership.

The role involves establishing and building appropriate relationships with internal stakeholders located in Europe and key suppliers to achieve goals and develop best practice, and may involve the management of Sourcing Support staff.

The expenditures in this spend category are related to Marketing, Travel and Fleet.

Your key tasks will include:

- Developing and implementing, using multifunctional/cross country teams, long-term strategic procurement plans
- Being the sourcing expert for the specified category and acts as the escalation point for major problems and issues.
- Developing and maintaining flexible sourcing strategies that adapt and respond to changes in both external market and internal demand.
- Performing supply market analysis and monitors supply markets. Benchmarking industry and evaluateing new opportunities to be included in the sourcing strategies and supplier selection process.
- Managing strategic supplier evaluation process and selecting suppliers using a cross-functional sourcing team.
- Leading negotiation, reviewing and selecting suppliers for major contractual agreements within the category.
- Managing change within the contract and transition to new contract arrangements.
- Developing Supplier Relationship Management with strategic partners in order to maximize value creation in line with the needs of Ideal Standard

Ideal Standard

- Stimulating a culture of continuous improvement, constantly re-evaluating better ways of doing things.
- Developing relationships with stakeholders at all levels and ensures internal customer satisfaction
- Tracking status/benefits, supplier performance and compliance relative to targets.
- Developing budget forecast, cost projections and "Total Cost of Ownership" model for materials/services in the category.
- Managing supply risk through the identification of internal and external risks, and the development of mitigating actions.
- Identifying opportunities to implement best-in-class approaches to reduce TCO.
- Coordinating and driving local activities and projects to assure consistency with the procurement strategy to meet the overall procurement plan.
- Contributing to the development of Procurement performance and capability in the category team.

Candidate Profile

- Minimum 5 years' procurement experience including extensive and demonstrable track record in above categories (Marketing, Travel and Fleet)
- Strong experience in category management
- Experience working in an international, multi-country business & procurement environment
- Successful stakeholder management
- Experience of strategic sourcing process with a proven capability to analyse and develop strategies through to implementation
- Supply market knowledge and experience relevant to the categories under management
- Experience of active leadership of cross-functional project teams across multiple countries
- Strong negotiating skills and experience of applying these in high volume negotiations
- Strong change management, risk assessment and mitigation skills
- Experience with procurement KPI's, development of balanced score-cards that link with business objectives and priorities
- Robust financial understanding required to support ad-hoc and ongoing analytical and cost budgeting exercises
- Experience of supplier management and development is desirable
- Experience of working in a fast paced lean business culture such as venture capital or private

Ideal Standard

equity organization is desirable.

- Bachelor's degree in business/ other related discipline
- Experience in Project management
- Strong command of English
- Strong MS Office literacy
